We love Ruff n Tuff!

We hired Ruff n Tuff to renovate our front and side yard of our new home and are so pleased with the results. From the beginning, Lucas did a great job of helping us envision and design what the space could become, walking us through the full process to get us comfortable, and staying in touch throughout to make sure the job was done well and how we imagined. On the day of, the crew showed up on time (even early!) and were very communicative at each step to make sure we were all on the same page. Once finished with the project, they walked through everything with us to make sure it was to our liking.

The Ruff n Tuff team transformed our yard into a space that we will be able to use and we are so thankful of the hard work they did! We definitely will (and already have) recommend them to our friends and neighbors because of the job they did.

From start to finish they did a great job. Great communication and flexible to work with. Ruff n Tuff Turf did my front yard landscaping with Turf, D.G. and river rock. Lucas came and spent 5 hours with me designing everything. I also had them put river rock behind pool in planter which needed a gopher screen under it. Everyone I dealt with was friendly, helpful and wanted to please. Lucas was exceptional. The workers were very accommodating and did a great job. I have had numerous people stop by and tell me how great it looks. Some wanted to take pictures. Great company, very professional and good quality work. I hired them because they did a job for a neighbor and it was beautiful.

If you are thinking about artificial turf definitely go with Ruff N Tuff. Start with the sales staff Lucas. He spent a lot of time with me helping me plan my back and court yard. I was at loss at what to do. Lucas came up with great options that I could pick from. The company has financing and offer money saving incentives. Lucas really gave me good information about their US made turf and the difference between other artificial turfs. I love the fact it is US made and does not fade. If you have pets this is the grass for you. They have enhancements other than sand to keep using odor from lingering. This grass is lush, cooler to the touch than other grass and feels great on barefeet.

It created a clean, lush looking yard that my neighbors are envying. Lucas stayed in touch throughout the entire process to make sure I was happy with installation and the process. My dog and I could not be happier. I know I picked the right business to transform my yard to a lush, water saving oasis.

Dale and his crew are the best. Ruff N Tuff Turf is top notch, great sales, great customer service and great installation. There is nothing negative I can say about this company! If Pebbles could talk she would say she is definitely happy with her new patio and pet turf! That's all that matters to me! I would highly recommend this company for your landscaping turf needs!

I'm so happy I went with ruff n tuff turf. I honestly didn't think it would look this nice. The dirt around my backyard had been an eyesore for me since I moved in and with 3 big dogs I felt limited in viable options for a long term fix. But then I found Ruff n Tuff Turf and Tikesha went through the durability and longevity of the turf during my in home visit.

The process is easy with Ruff N Tuff as well. I filled out the questionnaire on their website, received a text message from them within 24 hours asking what I wanted and had ideas of. The in-home visit for estimation and questions was scheduled for a couple days later and I chose to go with Ruff n Tuff. I received an email with my contract and was told it'd take about 2 weeks for install but I received a text from Justin a few days later and they had available days the same week. Install was easy, the delivery person dropped off the turf exactly when Justin said he would. Then the installers arrived and confirmed where I wanted the turf. A day and half later my yard looked great. All-in-all it was about a two week process from inquiry to completion. Ann Marie is very helpful throughout the process as well, she always answered my phone calls and went over any questions I had. I wish I remember the installers name but him and his crew were nice to me and cleaned up everything.

Just had our consultation with their marketing representative, Ikesha Coleman, she was on time, helpful, and professional. She came out to our home and measured our yard and helped us pick the best option for us and our dogs. They offer financing which is awesome and makes it way less stressful. Their turf is also all made in the USA, we love to support USA made products.

We are now waiting for our turf and pavers to arrive. They quoted us around 2 to 3 weeks until the turf will be completed. I will update as the project progresses, so far, amazing experience.

Update: in less than two weeks our project is done. Took them 4 days, we were a bigger project. They did an amazing job! Once the job was complete the guys rinsed and swept all the dirt off the concrete and made it look amazing.

I have included before and after photos to show how amazing the backyard looks now.

We financed the project and it was easy to do. I will try and remember to do an update in a year or 6 months on how things are holding up. They offer an amazing warranty on their products and installation.
